

JULY 2020

Donation Amount: \$2880.00

August marks 24 months since Modus Property has been supporting CINI Australia, helping children affected by HIV in India. This especially important as Covid worsens in India.

School is still closed for this little boy, Dilip. His parents hope his bandana will protect him. The CINI team are providing support and advocacy by phone and still making emergency home visits when necessary. This month, staff have made their way back into the villages, meeting in small groups, checking families' health, seeing how they are handling the stress of lockdown.

Over the last two years we've supported 286 families, with 331 children, in 162 villages. Approximately half of these children are HIV positive, the other half have a positive parent. CINI Australia has advised, that without Modus Property's financial backing of their IICCHAA program, it's very likely many children would not have survived Covid.
