

2022 SECOND QUARTER

Donation Amount: \$4265.00

Sisters, Nilu and Sampa are starting their professional training. Nilu has signed up for advanced tailoring and Sampa, for advanced computer training and English, skills which are transforming their lives.

As young teens they were under enormous pressure to abandon their education and bring in an income. Previously, they were too worried about their family's survival to study. Both parents are HIV positive and Nilu was just 13 when her father left the family without an income or home.

Cini Australia has now been by their side for 4 years. Encouraging the girls to complete school, funding extra tuition and providing nutritional support. Both girls now tutor younger children in similar circumstances. Sampa's art work shows a child's struggle between education and the pressure to earn an income.

Modus has contributed over \$4000 over the past 3 months, which will support 42 adolescents, like these sisters, with extra school tuition and income generation skills. They will be protected from the hardship encountered by their mother's generation.
